

**Red Square** has taken the clubs by storm. Four seasoned musicians with over 25yrs of playing and performing experience has turned the music scene inside out. Their wide variety of rock, rhythm and soul is a dynamic show worth watching and listening to. With a tremendous following and style and energy that is untiring, every venue that has invited **Red Square**, has asked them back several times over.

Four incredibly talented musicians have put together a set list of covers that include songs from artists such as The Police, Incubus, Pearl Jam, Live, The Rolling Stones, Velvet Revolver, Foo Fighters, U2, Alice in Chains, Maroon 5, and many more. From alternative to classic rock, we can easily tailor our set list to match just about any club's audience. **Red Square** is no newcomer to the club scene, playing all over the Boston scene as well as many eastern Massachusetts bars; they have quickly gained the respect of their fellow musicians and fans alike. Members of **Red Square** have also played nationally and have recorded several independent albums.

#### **The Band members are:**

##### **Jason Brandenburg:**

- lead vocals + sax + trumpet + congas -

A self taught saxophonist and percussionist, Jason's been singing since he can remember. His influences are varied, from Stevie Ray Vaughn, Lennon/McCartney, Phil Collins, and Dave Gilmour, to Bobby Darin and George Michael. His award winning vocal styles and range are as dynamic as they are rich.

##### **Haril Pandya:**

- guitar + vocals -

Haril has been playing guitar for over 20 years. Drawing from his love of Jimi Hendrix and Stevie Ray Vaughn to his love of Indian classical music, Haril focuses on blending eastern rhythm, western blues and rock throughout his playing style.

##### **Renato Capobianco:**

- drums + percussion -

Nato', as he is endearingly known to us, grew up listening to The Police and The Beatles. His chops and ability are mastery. He is as delicate on his kit as he is able to rock with the best of them.

##### **Brian Burr:**

- bass + bass +more bass -

Brian holds us all together. His understanding of groove and rhythm is a true compliment to the drums and guitar. From Rock to Funk and Metal, Brian's great talent for bass is the true undercurrent for **Red Square**.
